If you have a temperature or have recently been exposed to someone who has tested positive for the virus, please do not attend this outing for the protection of those who attend. Fortunately many of our members will have had their COVID 19 vaccine and the active cases have reduced in TN by mid-April. However, we will attempt to follow the CDC & State recommendations as of that time.

Note: During entire outing we want to protect ourselves and our fellow members from possible virus infection by practicing 6-foot social distancing and masks if you cannot.
